

LEVELING UP YOUR CLASSROOM
Integrating Technology to Improve Outcomes

Missi Stec, DNP, CNM, APRN, FACNM, FAAN, ANEF
Vanderbilt University School of Medicine

[EdTech@Vanderbilt.com](#)

1

OUTCOMES

- Understand pedagogy and technology theory and how it relates to development professionals.
- Articulate how the SAMR model applies to technology integration.
- Create opportunities to change the status quo in education.
- Develop one new opportunity for meaningful integration of technology to improve outcomes.

2

THIS IS MY *Story*

Guided Notes for Improved Cognition

- Format for providing materials that are NOT traditional slides
- Offers opportunities for students that learn in different ways
- Can be used across courses or in a series
- Platform for multiple types of materials
- Can be paper or electronic
- Great for COLLABORATION across courses

Antepartum

Skull Diameters

Label the fetal skull diameters and fontanelles below.

Labels	Submentovertical 8.5 cm	Anterior Fontanelle	Posterior Fontanelle
	Supracantometal 9.5 cm	Occipitofrontal 11 cm	Suboccipitotrigeminal 8.5 cm

Newborn

Jaundice and Bilirubin

Using the labels below, draw lines or write in descriptions at each appropriate step to describe what occurs in the physiology of bilirubin breakdown.

Unconjugated bilirubin is insoluble in water and is not excreted in urine. The conjugated bilirubin is water soluble and is excreted in urine.

When a bilirubin conjugate breaks and enters stool, it is excreted in stool.

Unconjugated bilirubin and fecal urobilinogen are excreted in stool.

Brainstorming

How do I best? _____

Is change hard for me? _____

How does that influence my teaching? _____

Apps to Consider

22

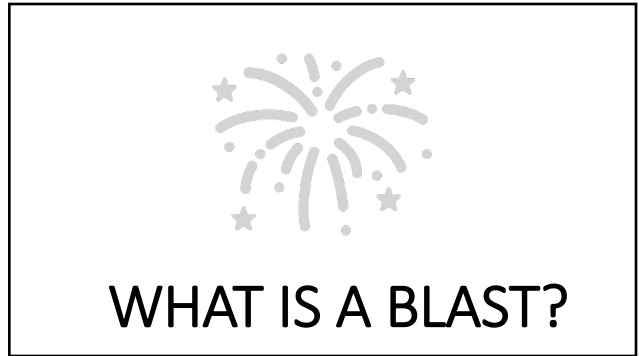

23

24

25

26

Audio for Accessibility and Access

- Audio only allow for multiple types of materials
 - lecture, discussion, reviews
- Offers improved accessibility and access to students
- MP3 can be saved in a variety of share platforms
- Can be useful to pare down materials into manageable amounts
- Consider what's already available

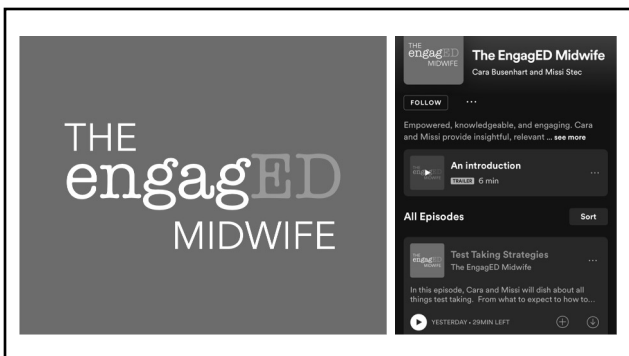

27

EXTRACT
from powerpoint

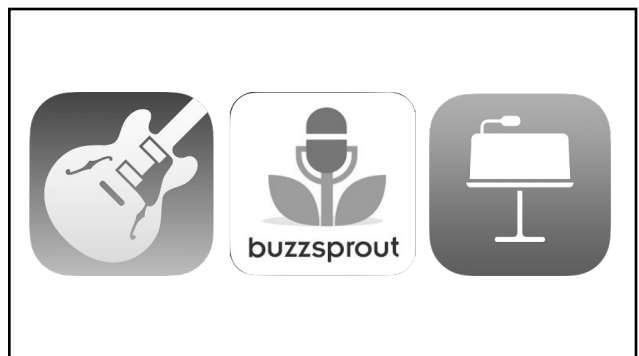

RECORD
on phone or computer

EXPORT
from zoom or teams

32

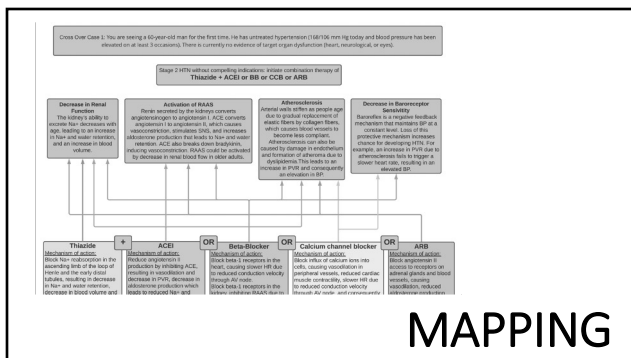

33

Visualization for Comprehension

- Strategy that allow for the presentation their thinking in a visual way as part of the learning process
- Offers improved learning through increased participation and collaboration among students
- LMS integrated (BB Collaborate, D2L)
- Features include unlimited canvas, collaboration features, ability to attach files, presentation options
- Consider what's available- Kahn Academy is the BEST example of how this is used effectively
